They kept me prisoner for four years, using me for my predictions. They thought they had me subdued, meekly following orders, but they were wrong. I was waiting for a chance to run. I had to be careful, though. They had my brothers, and the leader wasn't exactly human.

The sudden death of her stepfather gives Michelle the only chance she may ever have to escape, and she takes it. She needs a place to hide and someone to listen to her predictions so her head doesn't explode. Yet, there's nowhere she can hide and no one to protect her from the monsters pursuing her.

Then, she meets Emmitt. He's calm, kind, caring...and a werewolf. If she can find a way to trust him, he might be able to do more than just keep her safe. He might be the one who can help her fight for answers about her gift and the other women like her.

Only time will tell if what she discovers is enough to keep those she loves safe from an emerging evil.
