All she wants is forgiveness, and all he wants is revenge

. . .

From the *New York Times* Bestselling Author Penny Reid

One week.

Private cabin.

Famous physicist.

Still an unrepentant slacker (but now also very, very angry).

What's the worst that could happen?

Mona's meticulously planned allotment of relaxation is thrown into chaos by the unscheduled appearance of her older brother's band of friends, including the one person she'd hoped to never face again. Abram still makes her feel entirely too much, which is one of the reasons she disappeared after their one week together. But now, trapped on a mountain of snow and things unspoken, Mona will have to find a way to coexist with Abram, chaos and all.

Laws of Physics parts 1 (MOTION) & 2 (SPACE) end with a cliffhanger.
