"For The Calculus Affair, I traveled for the first time, in order to sketch and take photos of the places where the action was going to take place." -Hergé

An amazing invention from Professor Calculus starts to cause disasters at Marlinspike Hall: all the windows blow out, as well as most of the glass objects! Professor Calculus' new discovery is a source of envy and he is soon abducted. It's now up to Tintin and Captain Haddock to rescue their friend and prevent his mysterious invention from being transformed into a fearsome weapon.

Tintin, perhaps one of the most famous cartoon heroes of all time, is as much a child of the 20th century as his creator, Georges Remi—aka Hergé (1907-1983). Tintin's adventures, marked by his inquisitiveness, sense of mystery and witty humour, are deeply rooted in the events of that tumultuous era.

Featuring an official new English translation.
