Chain of Fate: Book One

Jason Grant runs his own IT business from home, owns his own home, and has the best friend he could imagine. What he doesn't have, or believe he will ever have, is love. When Jason catches a glimpse of his new neighbor on moving day, his libido ignites and his fascination is piqued. He even manages to concoct an excuse to go over and meet the man who makes him hope and want for more than he has in years.

Keith Skyler is a shifter in a world where his kind is known only to a few, but they don't often mix and they never mate. Keith has been hoping for a mate since before he can remember, but gay lynx don't have true mates. As far as he knows, they don't have mates at all. However, while moving his little family across Seattle—and away from their tribe—his reality tips and spins more than he thought possible.

When these two men meet over a dish of five-cheese broccoli-noodle casserole, sparks fly. Who knew a welcome-to-the-neighborhood gift could give both of them their chance at love?
